Affordable Contract Signing for Consultants with BoldSign

Introduction

Edith Caballero, founder of Edith Caballero LLC, is a seasoned professional based in Miami, Florida. Through her practice, Edith provides specialized social work consulting and professional coaching. Her mission is to help professionals overcome burnout, navigate career transitions, and excel in their leadership roles by providing a structured, authentic space for growth.

Challenge

As a consultant managing a focused roster of clients, Edith only required essential e-signature features for a few agreements each year. Her previous provider, Docusign, did not offer a plan that scaled to the needs of an independent consultant. She found herself overpaying for a high-volume enterprise service that didn't align with her lean business model. While seeking a flexible, user-friendly alternative, she discovered BoldSign.

Solution

BoldSign provided the perfect balance of professional features—like custom branding and automated reminders—without the mandatory monthly flat rate. For Edith's coaching and consultation contracts, the ability to access essential tools for free or via affordable add-ons was a gamechanger. "I was paying high costs for software that offered more than I needed for my consulting workflow," Edith said. "BoldSign resolved that by providing a flexible plan that actually makes sense for independent business owners."

Conclusion

By switching to BoldSign, Edith streamlined her document-signing process for consulting agreements, keeping her overhead low and her business efficient. As Edith puts it, "BoldSign has allowed me to manage
