Efficient, Affordable Contract Signing for Educators with BoldSign®

Introduction

North Peninsula Mandarin School (NPMS) is a long-standing non-profit organization that has provided instruction in traditional Chinese for more than 40 years. The school serves a diverse community of over 380 students, including those with and without prior Mandarin experience.

Challenge

As a non-profit organization, NPMS is mindful of operational costs and looks for ways to manage administrative tasks efficiently without adding financial strain. The school needed an e-signature solution specifically for teacher and teaching assistant contracts and required a service that would allow a free account for non-profits.

Solution

NPMS adopted BoldSign to support its contract-signing process. The platform met the school's core needs by enabling electronic signatures for teacher and TA contracts without impacting the budget.

In addition, NPMS had a positive experience with BoldSign's technical support. "I had issues importing contacts, and the support team was responsive and able to identify and resolve the problem," said Eva Cheng, Vice Principal. The assistance helped ensure the system could be set up and used effectively.

Result

By using BoldSign, NPMS was able to complete necessary contract paperwork efficiently while maintaining cost control. The availability of a free plan for non-profits, combined with responsive support, made the service a practical fit for the school's administrative needs.

Industry
Non-profit organization

Product used
BoldSign®

Region
United States

Use case
I received friendly service. I had trouble importing contacts and the support team was able to identify the issue and eventually fix the problem

NPMS is 100% run by parent volunteers! Please support the school by serving as a room parent/board member, or volunteering at school events. www.npms.org
