JJK Consulting

JJK Consulting Unlocks Unlimited E-Signatures with BoldSign

Background

When clients need an affordable ISO consultant, they turn to JJK Consulting Inc. For over 15 years, JJK has helped businesses plan and establish systems that comply with industry standards and regulations, including quality audits, OSHA training and certification, information security management, AI governance, and more.

Challenges

To process information securely, JJK uses envelopes to request and collect e-signatures. Unfortunately, its e-signature service, Docusign, limited the number of envelopes it could send and charged additional fees to increase the amount regardless of the team's paid subscription. Tired of paying extra to meet demands, JJK began searching online for a more cost-effective alternative. When the team realized BoldSign offers unlimited envelopes for a fraction of the price, they decided to make the switch.

Solution

Three days into their **free 30-day trial**, JJK's BoldSign Account Manager reached out to share helpful resources for getting started, ensuring the team's transition was seamless. According to Kyle Kachidurian, the operations support manager at JJK, "[BoldSign has a] great support team! From the moment we signed up for our free trial, they immediately had an agent helping us through the process of learning the platform and walked us through getting a paid subscription for exactly what we needed."

While Docusign is a top-rated tool in the e-signature market, BoldSign offers a smoother, more intuitive experience. "[BoldSign] made it very

Use case
With unlimited envelopes at a fraction of the cost, a seamless onboarding experience, and hands-on support, BoldSign helped Kyle's team switch quickly, streamline operations, and eliminate usage anxiety.

easy to send many documents that required e-signatures, allowed us to transfer over our templates from Docusign, and the UI is much more user friendly," Kyle said.

Ultimately, the BoldSign Business plan proved to be the perfect e-signature solution for JJK. Its affordability, paired with unlimited envelopes and ease of use, made a significant impact on JJK's document-signing workflow. "Being able to send documents immediately and not having to worry about envelope count makes a massive difference," Kyle said. "[By] allowing us to send NDAs immediately, [we] keep project momentum flowing and engagements on track."

> "BoldSign is the easiest way to send documents for e-signature on the market. You won't find a better platform."
