How Nomads Club Switched to a More Affordable eSign Alternative

Introduction:

Since 2020, Nomads Club has helped global entrepreneurs relocate to jurisdictions that align with their business goals. Headquartered in Limassol, Cyprus, Nomads Club offers comprehensive banking, tax planning, tax residency, and company formation services.

Challenges:

To safely streamline its document-signing process, Nomads Club adopted a well-known e-signature service, Docusign. However, they soon realized it wasn't a cost-effective option. According to Treasurer Sonya Rodriguez, "We were charged for every template we sent. We needed a secure way to get legal documents without high costs, as a nonprofit company."

While searching online for a more affordable alternative, Sonya's team found an e-signature service with the same level of security for a fraction of the price—BoldSign®.

Solution:

BoldSign proved to be the right solution for Nomads Club. Sonya's team especially appreciated that they could request attachments from signers while sending documents. Now, Nomads Club can process legal paperwork efficiently without worrying about security or going over budget. "We send out documents and get driver's licenses all in one," Sonya said. "The cost is great for what we use it for."

Impact:

By switching to BoldSign, Nomads Club reduced its e-signature expenses without sacrificing security. As a result, Sonya's team was able to keep their document-signing process fast and accessible to every client. "[BoldSign] saves time by letting me send anyone the document, instead of members coming to the business I work at and filling out the forms in front of me," Sonya said.

Europe
(Limassol, Cyprus)

Use case
Nomads Club switched from Docusign to BoldSign in order to reduce e-signature expenses without sacrificing accessibility, security, or efficiency.

> “Definitely try [BoldSign]. You won’t be disappointed.”
>
> **- Sonya Rodriguez, Treasurer at Nomads Club**

Conclusion

Nomads Club found BoldSign to be an economical alternative to Docusign, as it enabled Sonya’s team to process legal documents quickly and safely for less.
