Speed Up Adoption Agreements with an Easy, Efficient eSignature Solution

Introduction

Terri Rausch is the Office Manager and a Customer Service Representative at Almost Home Animal Rescue, the first never-kill 501(c)(3) animal rescue organization, where she has helped many animals find their forever homes.

Challenge

Terri knew the disadvantages of physical paperwork all too well. Between the wastefulness, expenses, and adoption agreement delays, she knew it was time for the organization to find a digital solution. She sought an e-signature service that could save the organization time and money, so she turned to BoldSign.

Solution

Thanks to BoldSign, Almost Home Animal Rescue has expedited its adoption process. “We have more efficient turnaround times for getting adoption contracts returned to us,” Terri said. “There’s also been less wasted paper and printing expenses.”

Terri has been particularly impressed with the service’s customizability, support for dual signatures, and how easy it is to file returned documents. She has also been eager to voice the positive experience she had with the BoldSign support team. “They were very helpful. Since we’re a non-profit, they gave me a walkthrough on how to use the service for free!”

Industry
Non-profit Organizations
